

INTRA-COMMUNITY TRADE IN GOODS STATISTICS THRESHOLDS FOR 2018

By virtue of Ordinance No. РД – 05766/16.10.2016, issued by the chairman of the National Statistical Institute, the new Intrastat declaration and statistical value thresholds for the purposes of Intra-Community trade in goods statistics were adopted.

The declaration thresholds for 2018 have been increased and the new thresholds are as follows:

- for dispatches – BGN 260 000 (the threshold for 2017 was BGN 240 000);
- for arrivals – BGN 430 000 (the threshold for 2017 was BGN 410 000).

The statistical value thresholds for 2017 are as follows:

- for dispatches – BGN 12 800 000 (the threshold for 2016 was BGN 11 700 000);
- for arrivals – BGN 6 300 000 (the threshold for 2016 was BGN 5 600 000).

For 2017 the threshold which allows the registered Intrastat operators to apply a simplified procedure for declaration of the transaction for Intrastat purposes remains at the level of BGN 390.
